

Math Contest Script

Del Valle ISD

It is 2021. A new era has begun.

This ain't your grandma's generation.

I am a Mathematician.

My story sets me free; Persistence rooted in my family tree.

I am not your prey; I got resilience ingrained on my DNA.

My imagination is my emancipation.

It is 2021. A new era has begun.

This ain't some limited edition.

I am a Mathematician.

My ethnicity makes me an outlier to your "best line of fit".

I have the power to cultivate. To equate. To calculate my fate.

My creation is my emancipation.

It is 2021. A new era has begun.

This ain't your grandpa's colonization.

I am a Mathematician.

My diversity makes me part of the common denominator.

I won't be reduced to fractions by any commentator.

My education is my emancipation.

It is 2021. A new era has begun.

This is the evolution we need for innovation.

I am a Mathematician.

I am the unknown needed to pivot U.S. into position, but it requires all our integration.

My voice is my emancipation.

Math Contest Script

Del Valle ISD

We are a generation of mathematicians.

It is 2021. A new era has begun.

It's time to recognize our humanity.

Respect our diversity.

For we are legendary. We are Visionary.

We will defy the logic of the past.

For we are destined. We are determined.

You Know, Skew the Status Quo.

For, our stories are louder than statistics

Our emancipation is mathematics.
